Seminar on Career in Armed Forces

IEEE RGIT, the biggest technical committee along with the TnP cell conducted a seminar on **Expert Talk on Career in Armed Forces for Technical Graduates**. The seminar was conducted in the seminar hall on the 30th of September, 2019 from 11 :00am – 1 :00pm.

The interactive seminar was conducted by Retd. Brigadier Ajit Shrivastav. He joined the Indian Army in Jan 1974 and retired on 30th April, 2011, after serving for 38 years in the Indian Army. He was selected by the Army to do Civil Engineering from College of Military Engineering, Pune. And, later PG in Structures and PG Diploma in Computer Application. Possessing numerous qualifications in both civil and military, including the Commando course, he served at every Indian border and area of the country. With a wide experience in all combat tasks, he was involved in combating insurgents in Assam and terrorist in J&K, construction of tracks leading to and Myanmar borders, temporary bridges, temporary shelters, bunkers, laying and lifting of mines, etc. He constructed the Highest Aviation base in Asia, in a record time despite the adverse climatic conditions and situations.

This seminar was attended by the students of TE and BE and some of the senior professors of the college. It was broadly divided into two sessions. The orator Retd. Brigadier Ajit Shrivastav started the seminar by introducing to the students, the working of The Indian Army, The Indian Navy and The Indian Air Force. Focusing mainly on the Army, he guided the students in all the major fields in armed services, giving a detailed explanation on the hierarchy, the selection process and complete insight of the path in Armed forces.

In the second session, he gave the students a comprehensive description of the Army education system, how their institutes work and all the related information. He also touched upon all the perks and privileges that come when a student enrolls to serve in the Indian Army, giving the students a complete understanding of why they should join The Indian Army.

At the end of the session, Mr. Shrivastav gifted out college a Roll of Honour board which mentions the names of the students from our college who went to serve in the Armed Forces. The first name on the Roll of Honour was Mr. Gautam Shrivastav who passed out from RGIT and joined the armed forces in the year 2009 and is the son of our speaker Retd. Brigadier Ajit Shrivastav.

Overall, it was a great success and a moment of honour for the college and committee involved, to have a personality whose career has been so illustrious in serving the nation, to come and conduct such informative seminar in our college. The Powerpoint slides were very helpful. The material was very comprehensive, because of which all the students involved were benefited.
